Gvision® Camera System

Rugged, Simple and Cutting-Edge

Rugged and simple to operate, the Gvision® Camera System is an affordable camera solution with user-friendly functionality. Easily record inspections with One Touch® technology onto a USB hard drive, flash drive or Apple® device. A built-in microphone allows you to record your voice to videos and playback on a mobile device. Capture every detail with the 1.3" color, self-leveling camera head

Features

- Bright self-leveling color camera head
- "Always-on" built-in transmitter for up to 15 feet depth
- Stiff yet flexible for ultimate navigation through 3" up to 12" pipes
- Large anti-glare color LCD with wide viewing angles
- One-Touch record onto USB hard drives, flash drives and USB to Android® and Apple® devices
- Built-in microphone
- Ruggedized design
- Power with AC, DC or Battery (optional)
- Made in U.S.A.
